

Business Findings-OLA VS UBER

	Company	Fulfillment_Success_Rate_Pct	Attrition_Cancellation_Rate_Pct	Incomplete_Ride_Rate_Pct
►	Uber	62.08	25.03	12.89
	Ola	66.99	26.80	6.21

Insight 1: Ola achieves a higher ride fulfillment rate (66.99% vs 62.08%). Uber's incomplete ride rate is significantly higher, indicating weaker ride completion performance.

	Company	Booking_Status	Internal_Cancellation_Share_Pct
►	Ola	Cancelled by Driver	71.70
	Ola	Cancelled by Customer	28.30
	Uber	Cancelled by Driver	71.65
	Uber	Cancelled by Customer	28.35

Insight 2: Around 72% of cancellations on both platforms originate from drivers. Driver-side issues are the primary cause of ride cancellations.

	Company	Time_bucket	Success_Rate_Pct
►	Ola	Night	66.81
	Ola	Afternoon	66.97
	Ola	Morning	67.03
	Ola	Evening	67.18
	Uber	Night	61.93
	Uber	Afternoon	62.00
	Uber	Morning	62.09
	Uber	Evening	62.37

Insight 3: Ola consistently maintains higher success rates across all time periods. Time of day has minimal impact on ride completion performance.

	Company	Day_Type	Conversion_Rate_Pct
►	Ola	Weekday	66.78
	Ola	Weekend	67.57
	Uber	Weekday	62.21
	Uber	Weekend	61.71

Insight 4 : Both platforms perform slightly better on weekends. Ola maintains a conversion advantage on both weekdays and weekends.

	Company	Vehicle_Category	Avg_Driver_Match_Minutes
▶	Ola	Auto	10.44
	Ola	Bike	10.47
	Uber	Bike	9.00
	Ola	Economy	10.39
	Uber	Economy	9.01
	Ola	Premium	10.45
	Uber	Premium	8.97
	Ola	Sedan	10.65
	Uber	Sedan	9.03
	Ola	SUV	10.53
	Uber	SUV	9.03

Insight 5: Uber assigns drivers faster across all vehicle categories. Its matching system appears more operationally efficient.

	Company	Vehicle_Category	Avg_Customer_Pickup_Delay_Minutes
▶	Ola	Auto	15.46
	Ola	Bike	15.66
	Uber	Bike	6.98
	Ola	Economy	15.49
	Uber	Economy	7.00
	Ola	Premium	15.52
	Uber	Premium	7.00
	Ola	Sedan	15.63
	Uber	Sedan	7.00
	Ola	SUV	15.54
	Uber	SUV	7.00

Insight 6: Uber's pickup delays are less than half of Ola's. Customers are picked up significantly faster on Uber.

	Company	Mean_En_Route_Arrival_Lag_Min
▶	Uber	-2.01
	Ola	5.08

Insight 7: Uber drivers arrive closer to or earlier than expected, while Ola experiences noticeable arrival delays

	Company	Time_bucket	Shift_Wait_Time_Min
▶	Ola	Night	15.71
	Ola	Morning	15.56
	Ola	Afternoon	15.52
	Ola	Evening	15.42
	Uber	Afternoon	7.00
	Uber	Morning	7.00
	Uber	Night	6.99
	Uber	Evening	6.98

Insight 8: Uber maintains consistently low wait times throughout the day. Ola's wait times remain significantly higher across all periods.

	Company	Vehicle_Category	Average_Order_Value
▶	Ola	Auto	1017.56
	Ola	Bike	1023.98
	Uber	Bike	1021.14
	Ola	Economy	1024.40
	Uber	Economy	1025.74
	Ola	Premium	1022.00
	Uber	Premium	1024.22
	Ola	Sedan	1026.64
	Uber	Sedan	1019.93
	Ola	SUV	1024.85
	Uber	SUV	1020.33

Insight 9: Average booking values are nearly identical across both platforms. Neither company has a major advantage in fare size.

	Company	Avg_Completed_Distance_KM
▶	Uber	15.51
	Ola	25.45

Insight 10: Ola handles longer rides on average, while Uber appears more focused on shorter-distance trips

	Company	Financial_Yield_Per_KM
►	Uber	119.85
	Ola	82.42

Insight 11: Uber earns substantially more revenue per kilometer than Ola, indicating a stronger pricing strategy.

	Company	Pricing_Volatility_Variance
►	Uber	30989.58
	Ola	21162.57

Insight 12: Uber shows higher pricing volatility, suggesting more aggressive surge and dynamic pricing practice

	Company	Payment_Method	Checkout_Preference_Pct
►	Ola	Card	24.74
	Ola	Wallet	24.54
	Ola	Cash	25.53
	Ola	UPI	25.18
	Uber	UPI	25.25
	Uber	Wallet	25.01
	Uber	Cash	24.77
	Uber	Card	24.97

Insight 13: Payment usage is evenly distributed across methods. Payment preference is not a key differentiator between the platforms.

	Company	Vehicle_Category	Avg_Passenger_Rating	Avg_Driver_Rating
►	Ola	Auto	4.01	4.01
	Ola	Bike	4.00	4.00
	Uber	Bike	3.01	3.00
	Ola	Economy	3.99	4.00
	Uber	Economy	3.00	2.99
	Ola	Premium	4.00	4.00
	Uber	Premium	3.01	3.00
	Ola	Sedan	4.00	4.01
	Uber	Sedan	3.00	2.99
	Ola	SUV	4.01	4.00
	Uber	SUV	3.01	3.00

Insight 14: Ola consistently receives higher customer and driver ratings, indicating stronger overall user satisfaction.

Company	Mutual_Friction_Gap
Uber	0.01
Ola	0.00

Insight 15: Both platforms show minimal rating gaps between drivers and customers, indicating aligned satisfaction levels.

	Company	Avg_Trips_Per_Customer	Avg_Lifetime_Value_Per_Customer
▶	Ola	1.0	1042.31
	Uber	1.8	1886.23

Insight 16: Uber customers take more trips and generate higher lifetime value, demonstrating stronger customer retention.

	Company	Avg_Trips_Per_Customer	Avg_Lifetime_Value_Per_Customer
▶	Ola	1.0	1042.31
	Uber	1.8	1886.23

Final Conclusion

Conclusion: Ola performs better in customer satisfaction and ride completion, while Uber leads in operational efficiency, pricing effectiveness, and customer lifetime value. Ola should focus on reducing wait times, whereas Uber should focus on improving customer experience and ride completion rates.
